Production Schedule / Location Site / Detail Of Aerial Activities

On September 15 between 800 and 1700 Local time, helicopter 241W will fly over a shooting range in the hills above Agua Dulce, specifically 2 miles North East of the intersection of Sierra Highway and Anthony Road for the purpose of shooting establishing shots of the range and a 'cast below' for the TV show "Top Shot" on the History Channel. The terrain adjacent to the range is mostly open grassland with rolling hills, and the helicopter will fly the range showing various aerials of targets and firing positions around the area. Producers will have wrapped active filming, so during the flight the range will be inactive and closed (no firing). Persons affiliated with the production have been notified of the use of the low altitude helicopter per movie manual requirements, and at no time will the helicopter operate closer than 500 feet from persons/property on the surface who are not affiliated with the production. See attached pages for detail maps.

Permission Of Property Owners / Local Officials

Production has secured the permission of the land owner for the aerial portion of the production and a Film LA permit has also been secured.
